User Tests - User Tests Individual Project
Updated Figma Prototype - Link

What insights did you learn from this user test? How are you going to incorporate them into your final prototype?

- Having an audio feature in beat quiz will be helpful and more interactive. -> I added a design feature to include this in the quiz beat sense section in the prototype.
- Different Color schemes for visual cues of Left and Right -> I added green for the text "RIGHT" and yellow for the "LEFT" cue.
- Difference between mandatory and supplementary arrows in the concept map.

User Tests Demography

- Taleb Hirani (Male, 22) – Has learnt bachata and is interested in learning new dance forms.
- Varsha Singhania (Female, 23) – She has no experience in dance and was a good user to understand the perspective of a beginner.
- Nayanika Biswas (Female, 24) – She has little experience in dance and has learnt music since 8 years. Good user to get input on how to learn and master an art form and to get opinions on beat sense feature.
